Company Profile

Triotree Company Profile

An ISO 9001:2015 Certified Company

Indian Express Healthcare IT Award 2016

(EMR Adoption)

IMC Award (2017) – Patient portal

JCI & NABH Accredited Clientele

TrioTree Technologies has been founded by a group of doctors and engineers with decades of experience in the healthcare domain. The founders have conceptualized, designed and deployed a variety of large scale systems for the healthcare industry to streamline business operations and to create a framework for clinical and strategic decision making.

We are a quality and delivery focused company which can be completely relied upon by our customers. Products and services offered by TrioTree are inspired by what we think is our primary responsibility-- people we serve- healthcare providers, patients and payers.
